kitchen hygiene

Through our extensive experience in solving the rigorous demands of catering hygiene, we have assembled a range of products that combine to offer total cleaning solutions.

Whatever your requirements we have a package which can be tailored to suit each location and environment. In addition we offer the support, technical assurance, training and engineering to keep your operation running.

The Food Safety (General Food Hygiene) Regulations 1995

These regulations require the proprietor of a food business to assess risk and apply controls in a way familiar to anyone with experience in workplace health and safety management.

Stage 1: Risk Assessment - identify hazards, assess risks, evaluate significance.

Stage 2: Risk Management - consideration, selection and implementation of controls to minimise the risk.

In addition there are some specific requirements in relation to the premises, staff and procedures. Our major suppliers provide cleaning systems with full training and support materials to help ensure compliance.

84-85 Nationwide brands
86-87 Concentrate cleaners & sanitisers
88 Dishwashing systems
89 Cleaning & sanitiser systems
90 Machine dishwashing
91 Hand dishwashing
92-93 Cleaners & sanitisers
